

# COVID-19 UPDATE

As an essential healthcare provider to our community, Gesik Physical Therapy prioritizes the health and safety for our patients and team members. During this time, we are making all efforts to stay well-informed with the COVID-19 situation. Our office is constantly updating our office protocols to comply with the CDC, Hawaii Department of Health, and government recommendations. Our goal has always been and will continue to promote a safe environment for all patients and team members.

## Steps our Team Members are Taking to Keep You Safe:

1. All team members are wearing a mask.
2. Daily Temperatures are taken before starting the workday. All team members understand the importance and responsibility that we provide to the community. We only show up to work healthy and ready to serve you!
3. Constant Sanitation with medical grade disinfectants are performed between patients and at the end of the workday.

## Office Protocols to Keep Everyone Safe:

1. **Entry Protocols:** Everyone is required to wear a mask or face covering. Signs are marked on the floor to help you with social distancing.
2. **Emphasis on Hand Washing:** Upon entry into the office, everyone is directed to wash their hands immediately in our gym with soap and water. Hand sanitizer is available as well.
3. **Limiting the Number of Patients:** Physical Therapy operations are staggered to prevent patients encountering one another.
4. **Temperature Checks:** Before your physical therapy session starts, your Physical Therapist will obtain your temperature.
5. **Contactless Payments:** If you wish to use Apple Pay/contactless payments from your phone, that option is available to you.

We understand that COVID-19 is a profoundly serious situation here in our beloved community and around the world. We hope and pray that you and your loved ones are all safe during this time. We deeply appreciate your trust in us here at Gesik Physical Therapy and we look forward to providing you with excellent patient care.

Mahalo and Take Care,
